Added airworthiness requirements

Change Security Assistance Training Management Organization's

MAJOR Changes to AR 12-7

The HQDA governing personnel sourcing principle is that all teams can be totally contractor, given that any team position that does not require military will be filled by a contractor or DA Civilian.

The TRM must provide compelling justification why military personnel are required in lieu of contractors and/or DA civilians. The justification must include why each individual team member's task cannot be accomplished using a contractor or a DA Civilian; and jeopardizes the team's overall mission success.

In accordance with Title 10 U.S.C. 167, the SAO will direct any requests for Army Special Operations Forces (ARSOF) personnel to the theater Special Operations Command (SOC) for validation, then to the theater Combatant Commander, who will then forward the request to USSOCOM for approval. Upon approval, USSOCOM will direct team sourcing.

MAJOR Changes to AR 12-7

The Country Team will then submit a detailed TRM through the COCOM for validation to HQDA for decision. The TRM will clearly state the mission, training goals, end state of the mission, and the qualifications the team members should possess per paragraph 3–1. The SAO should also identify geographic or climatic conditions to be considered in selection of team members. For contractor-staffed SAT, the SAO will include, as part of the TRM, a Statement of Work (SOW) to be coordinated with TRADOC.

The TRM will be submitted through the appropriate COCOM authority that works Security Cooperation programs to validate the requirements.

Upon COCOM validation of the TRM, it will then be forwarded to HQDA for coordination and decision. The Army action agency address is DASA DE&C Suite 8200, ATTN: SAAL–NP, 1777 North Kent Street, Arlington, Virginia 22209.

MAJOR Changes to AR 12-7

The DASA DE&C will coordinate with the DCS, G–1 and DCS, G–3/5/7 and make a decision on the TRM. If the TRM is disapproved, it will be sent back through the COCOM to the country team with applicable justification. If the TRM is approved, DASA DE&C will draft an Execution Message to DCS, G–3/5/7 ODO with a mission statement, metrics for measuring success, and a timeline for completion.

The DCS, G–3/5/7 ODO upon receiving the draft Execution Message from DASA DE&C will send a tasker to the SATMO, NG, and TRADOC G–3/5/7 Central Tasking Office to fill the request.

Request for team continuation
Continuation of the duration of an Army non-contractor PCS SAT beyond three years requires HQDA approval. If a PCS team requires a continuation beyond two years, the SAO will submit a Team Continuation Request Memorandum (TCRM) through the same process as the TRM for approval. To meet Army personnel management timelines, the TCRM must be submitted by the end of the first year. No continuations will be granted without Human
